

ZAKARYA OUKIL

SOC Analysis / Threat Hunting

Algiers / Remote (Open to Relocation) | Available for hire

Connect endpoint evidence to detection logic and a defensible response.

CORE COMPETENCIES

- Sigma, Suricata & YARA engineering
- SIEM triage & MITRE ATT&CK mapping
- Memory forensics & incident response
- Threat hunting & containment playbooks

SELECTED PORTFOLIO EVIDENCE

Detection engineering library

Sigma process-access detections, Suricata network rules and YARA artifact matching, with sample telemetry and MITRE ATT&CK mappings.

Incident response demonstration

Interactive lab replay correlates Kerberos activity, WMI execution and process access before a Linux workload containment scenario.

EDUCATION & CREDENTIALS

Master's degree candidate - Cybersecurity & Systems Architecture

eJPT - Certified / INE Security

BTL1 - In progress / Security Blue Team

CompTIA Security+ - In progress

TOOLS & ENGINEERING

Sigma / Suricata / YARA / Wireshark / Splunk / Elastic Security / Volatility

CONTACT & AVAILABILITY

Remote / Hybrid / Open to relocation

Immediate / 2 weeks - confirm during screening

Contact through the portfolio Recruiter Fast-Pass inquiry form.
